

Xabier Galarreta Velázquez (Donostia-San Sebastián, 1961).

A sworn translator by profession, Xabier has been working in the world of technical translations for over 20 years. Technical translation is therefore his livelihood. Yet on the other hand, literature shall we say is a vital need for him, even when it is not his means of making a living. His first works were published in 1988 and since then, his work has developed, to a certain extent, rather outside the normal channels, but always within Basque literature. As “Marjinalia Bilduma”, he has published all his works online on the website that he himself manages: <http://www.euskalnet.net/xgalarreta>. You will find his bibliography and full works there.
